

RTC-1000 2.0 Universal Time Clock[®]

A Big Business Solution with a Small Business Price

Plug & Play Simplicity

No software to install!

All Software is embedded right in the clock! Simply connect the time clock to a computer of your choice or directly to your network, with no complicated installation involved or expensive licenses to buy.

Universal Access & True Mobility

This one-of-a-kind time clock is ideal for small businesses and supports all connection options. Direct connect to a PC or Mac[®]; LAN, WAN or even access over the Internet (ideal for home offices or off-site payroll)!

NEW

Web Punch Time Clock[™]

Employees clock IN/OUT from their Web browser through the Internet or Intranet. Ideal for remote offices, traveling employees or working from home.

- Employees clock IN from any Web-enabled device such as cell phone or PDA.
- Compatible with all Web browsers
- Supports up to 25 Web Punch employee per system

The RTC-1000 2.0 Universal Time Clock[™] system comes with everything a small business needs to begin collecting punch data and immediately saving time and money.

Whether your time keeping needs are basic or complex, and whether your computer skills are minimal or that of an IT expert, the RTC-1000 2.0 Universal Time Clock[™] is a truly user friendly automated solution that is easily scalable to suit your varying business needs and resources.

Employees easily clock in with a unique ID number or with a badge at the time clock. Employees stay informed & can see the number of hours they have worked for that day or for the week at the clock itself. Supervisors, on the same hand, can easily access the time clock data anytime to edit, monitor employee hours and generate reports etc They can do this from their computer, over the network or even remotely over the Internet from a remote location with the right set up!

- **Multi-Clock Connectivity:** connect up to 7 time clocks together over the Network or Internet. The RTC-1000 2.0[™] uniquely allows employees to clock IN at one clock and OUT of another.
- **Multiple Employee Entry Options:** employees clock IN with a 3-9 digit customized ID number or with included proximity badge or through their web browser using the optional Web Punch Time Clock[™]
- **Easily Expandable User Capacity:** supports up to 50 employees. Expandable to 100, or 250 employees per system.
- **Universal Connectivity Options:** Ethernet and USB and serial connection. Even allows access to your time clock data over the Web!

RTC-1000 2.0[™] Benefits

User Friendly: automates time collection without extensive setup or training

Cuts Costs: automatically calculates standard, overtime and consecutive day (California) overtime hours

Expandable: supports & links multiple time clocks

Unique: allows time clock access & management over the web—perfect for home office or remote sites

Proactive: alerts managers before overtime, of missed punches & more

Flexible: supports all pay period types & allows for unlimited multi-user access

Value: one-of-a-kind QuickBooks[®] Plug-in and ADP[®] Export

Innovative: automatic lunch deduction & track paid breaks

Efficient: create advanced reports with new create report option

Compatible: works with all operating systems including Windows[®], Mac[®] & Linux[®]
